

Bridging Árbakki Eco-Industrial Park and Húsavík Harbour

The Bakki Tunnel, spanning 940 meters, stands as a vital link between Árbakki Eco Industrial Park and Húsavík Harbour.

Constructed in 2017, this subterranean passage plays a crucial role in optimising transportation efficiency, reducing costs for industries within the eco-friendly industrial park.

By seamlessly connecting these key areas, the Bakki Tunnel contributes to the economic and environmental sustainability of the region.
